EXPLOSION PROOF WORK LIGHTS

EX

EXPAND YOUR BUSINESS POTENTIAL

SCANGRIP is first-mover when it comes to development of new and innovative LED work lights. Now, we are proud to launch a new range of explosion proof work lights.

The LED technology is evolving very rapidly. We have taken advantage of these multiple technology developments to design a new range of explosion proof LED work lights providing extremely bright illumination and very long lifetime.

The pricing of this new EX range with high functionality is very competitive. This new product range is in fact offering you a huge business potential.

Handheld rechargeable work light

UNI-EX is a very sturdy, rechargeable COB LED work light for the professional user. The COB LED light provides a unique powerful and completely uniform illumination which is ideal for working light.

The extremely durable UNI-EX lamp features a sturdy surface to resist wet and dirty workshop environment. The shape and surface of the lamp provides a comfortable, ergonomic grip.

Place the lamp everywhere you want during inspection work with the turnable sturdy hook or the strong built-in magnet in the bottom for working. The flexible lamp head tilts up to 180 degrees.

UNI-EX is designed to carry in the pocket or in the work belt by the built-in belt clip. In this way, you always have the work light close at hand when you need efficient and bright illumination for a job.

The lamp is recharged in the charging base. When not in use, you keep the lamp in the charging base which is prepared for wall mounting.

UNI-EX is supplied with both mainlight and toplight. It offers two-step operating options depending on the type and durability of the work carried out: Step 1 = 50 %, step 2 = 100% light output. Up to 6 hours' operation time. The intelligent battery indicator at the back keeps you informed about the battery level.

Extremely powerful and outstanding work lights

The two new NOVA-EX work lights are both very powerful COB LED work lights providing extremely bright illumination. They are designed with the newest state-of-the-art LED technology for the professional user.

The new COB (chip on board) LED technology provides a uniform and completely even illumination with a high CRI (colour rendering index) value close to daylight which is particularly effective as work lighting.

Depending on the work task in question you can choose between 2 light modes: 50% and 100%, respectively.

Extreme durability

The body is made of diecasted aluminium and shockproof to endure even strong strokes and shocks. Both NOVA-EX work lights endure the rough, wet and dirty conditions of the professional working environment, and withstand even outdoor work in all kinds of weather conditions, as they are completely waterproof (IP67).

By the integrated carrying handle it is convenient to carry the work light from one work place to the other. The flexible stand can be used as a hanger and to position the lamp in the desired angle.

AC work light

NOVA-EX is supplied with 10m cable and is the perfect work light where there is access to permanent electricity.

NOVA-EX
